

DDS Lab Announces Strategic Alliance with Keystone Dental

DDS Lab will offer Keystone Dental participating dentists exceptional quality, service and value on dental laboratory implants, products and services.

TAMPA, Fla., Sept. 13, 2019 [/PRNewswire/](#) -- DDS Lab and Keystone Dental have formed a strategic alliance to offer the national dental implant supplier's participating dentists discounted pricing on dental lab implants, products and services, as well as exclusive continuing education opportunities.

"We are extremely pleased to enter into this strategic alliance with Keystone Dental. Our alliance will bring value and an unmatched level of quality and customer service to Keystone Dental's partner dentists," said Kelly Rivera, Senior Vice President of DDS Lab.

DDS Lab is a full-service, NBC-certified dental laboratory headquartered in Tampa, Florida, proudly owning a manufacturing facility in Shenzhen, China that serves dentists nationwide. The laboratory specializes in crown and bridge, dentures, partials, implants, and orthodontic restorations.

"At DDS Lab, we pride ourselves on product quality and seek to partner with dentists to provide their patients the highest quality restorations and appliances, ultimately enhancing patient outcomes," said DDS Lab's Senior Vice President, Kelly Rivera. "Our laboratory's robust technical team consists of 35 case consultants, including 10 CDTs in all specialties, to provide expert advice for case planning as well as consultations on complex cases. DDS Lab's restorations and appliances are fabricated only with FDA-approved materials to ensure quality and patient safety."

DDS Lab offers its customers a unique online service portal, MyDDSLab, which allows practitioners to enter prescriptions, submit photos, track cases and view their account online 24/7.

This alliance will provide Keystone Dental customers high quality restorations at affordable prices. DDS Lab and Keystone Dental will work collaboratively to offer additional benefits, including free continuing education courses across the country.
