

## **Aimmune to Participate in the Credit Suisse 28th Annual Healthcare Conference**

BRISBANE, Calif.--(BUSINESS WIRE)--Nov. 4, 2019-- Aimmune Therapeutics, Inc. (Nasdaq:AIMT), a biopharmaceutical company developing treatments for potentially life-threatening food allergies, today announced that members of the Aimmune executive management team will participate in a fireside chat at the Credit Suisse 28th Annual Healthcare Conference on Tuesday, November 12, 2019 at 1:15 p.m. MST in Scottsdale, Arizona.

A live webcast of the fireside chat will be accessible on the Events page under the Investor Relations section of the Aimmune website at [www.aimmune.com](http://www.aimmune.com). A replay will also be available following the webcast.

### **About Aimmune Therapeutics**

Aimmune Therapeutics, Inc., is a biopharmaceutical company developing oral treatments for potentially life-threatening food allergies. The Company's **Characterized Oral Desensitization ImmunoTherapy (CODIT™)** approach is intended to provide meaningful levels of protection against allergic reactions resulting from exposure to food allergens by desensitizing patients with defined, precise amounts of key allergens. Aimmune's first, investigational, complex biologic product candidate, AR101, is being developed as a treatment to reduce the frequency and severity of adverse events following exposure to peanut. The BLA for AR101 is under review by the FDA, which granted AR101 Breakthrough Therapy Designation in 2015 for the desensitization of peanut-allergic patients 4 to 17 years of age. The European Medicines Agency (EMA) is reviewing Aimmune's Marketing Authorization Application (MAA) for AR101 which Aimmune submitted in June 2019. Aimmune initiated a randomized phase 2 clinical trial of its second investigational, complex biologic product, AR201, for the treatment of egg allergy in August 2019.
