

SWK Holdings Provides Portfolio Update Highlighting Recent Achievements

Third Quarter 2022 Financial Results to be Announced in Early November

DALLAS, Oct. 18, 2022 /PRNewswire/ -- SWK Holdings Corporation (Nasdaq: SWKH) ("SWK" or the "Company"), a life science focused specialty finance company catering to small- and mid-sized commercial-stage companies, today provided an update on the progress and achievements of its borrower partners, including recent transactions and activities.

"The second half of 2022 has been an active time for SWK. We have capitalized on our strong underlying business fundamentals to close several transactions, including two \$25.0 million financings with Aziyo Biologics and MedMinder," stated Jody Staggs, President and Interim CEO of SWK. "These transactions, as well as a \$7.5 million financing with Exeevo, demonstrate that SWK remains a leader in the small and mid-sized life science finance market. We expect additional transactions through the remainder of 2022 and into 2023 as ongoing market volatility makes our non-dilutive financial structures attractive to companies in need of capital."

Mr. Staggs continued, "We are pleased our portfolio remains healthy despite the challenging market conditions. Additionally, during the quarter our Enteris BioPharma subsidiary received a \$5.0 million clinical progression milestone payment from Cara Therapeutics with SWK retaining \$2.5 million. Enteris has now received \$33.0 million of payments from the Cara license."
